

Life Under Water

There is a world to explore under water! Rivers, lakes and oceans are all home to many different animals. Visit an aquarium to see them up close.

Turtle

There are sea turtles and fresh water turtles. They also like coming out of the water for some sunshine!

Shark

Sharks live in the ocean and feed off of other sea creatures. They are great hunters!

Tropical Fish

Tropical fish can be found in the coral reefs in the ocean near warm climates. They are very colorful!
